

Social Studies, Grade 4

Unit I: Lesson B1

Map: **State Geographical Regions**

Carefully study your state's geographical regions.

After analyzing the geographical differences, neatly sketch a poster-size outline map of your state. Divide it into four regions of your choice. Write an explanation for why you divided the state as you did and describe the characteristics of each region. Decide which region you feel is most ideal. Support your reasons.

Share your description orally with classmates, using your poster-map.
