

Social Studies, Grade 4
Unit IV: Lesson A3

Mural: **Laws That Protect**

Government and laws are established to provide for your safety. Brainstorm to come up with as many ways you can think of that the laws of your state's government protect you.

From the ideas you come up with, select four or five that you can use to create a mural, showing ways you are protected by law and government. Compose captions for each part of your mural, explaining how it demonstrates protection or safety.

Display your mural in the classroom.
