

Social Studies, Grade 4

Unit V: Lesson A2

Map: **State Cultural Groups**

Research the original influx of cultural groups in your state.

On a state map, show in pictures and other means the routes cultural groups took to locate themselves. Explain what difficulties or obstacles they had to overcome to become established in the state.

Display your map in the classroom and in an oral report explain what you have learned about the settlement and establishment of different cultural groups in your state.
